

## CORPORATE CAPABILITIES

Alternate Perspectives, Inc. (API) is a certified woman-owned small business providing quality services and demonstrable results to clients in the areas of Consulting, Organization Development, Executive Coaching, Project Management, Operational Interventions, Strategic Planning and Education and Training. API serves both national and international organizations in both the private and public sectors and its work history and accomplishments include extensive experience with Job Corps and the U.S. Department of Labor, Office of Job Corps.

### API's Vision, Mission, and Values

We believe that the way individuals and organizations perceive the world around them determines how they respond to that world and what they achieve.

By helping individuals and organizations change their thought processes so that they can perceive the world differently, we can help them change their behavior in ways that will increase their achievements.

We believe in creating new ways of thinking, to create new ways of doing.

### API's Mission, Vision, and Values

#### Mission

We provide new ways of thinking to create new ways of doing for our employees, clients, and communities

#### Vision

API helps create a world where people respect themselves, respect others, respect their communities, and strive for excellence

#### Values

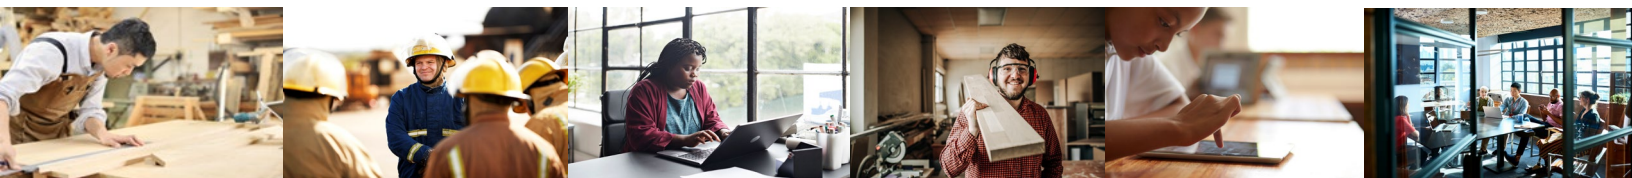

We are guided by our work by our values of  
A – Accountability  
P – Performance  
I – Integrity

### What We Do

We have assembled a team of distinguished practitioners, scholars, executives, and policy makers whose knowledge and skills are uniquely drawn together on a project-by-project basis to work directly with our individual and organizational clients. API provides:
